TROLLEY LINE PROPOSITION LIKE A SACK OF SALT

FROM PROMINENT HOUSTON CAPITALIST TO BRYAN

ANSWER REQUIRED IN TEN DAYS

Mr. Edward Kennedy's Representative Meets Members of the Trolley Line Committee Yesterday—Now Is the Time to Act.

Mr. Joseph Fain of Houston was in the city yesterday representing Mr. Edward Kennedy, a well known capitalist and promoter backed by ample capital in the field for the promotion of railways and trolley lines, and laid before members of the Bryan-College trolley line committee, at a meeting held at the offices of Doremus & Butler, with Chairman J. W. Doremus presiding, a proposition to finance and construct the proposed trolley line between Bryan and College. The proposition comes from an experienced promoter who is ready and willing to build the road, and the terms, as outlined to the Eagle reporter, are given below.

According to the consensus of opinion of members of the committee who were present the proposition is within the financial reach of the citizens of Bryan, and there should be no halting or delay in complying with its terms. The contract submitted to the citizens of Bryan is that there shall be donated free of all cost all right-of-way and terminal grounds necessary for the operation of said line. The estimated cost of building and equipping the road is placed at \$75,000.00; the people of Bryan to take \$25,000.00 in stock and the promoter to take \$50,000.00 in stock, same to be paid in cash, each party receiving therefor an equivalent in stock at par value.

The promoter agrees to begin grading in ninety days from date of contract, and to complete and have the road in operation in first-class condition one year from the date of completion of the grade.

The proposition must be accepted or rejected in ten days from this date. Should the proposition be accepted the promoter agrees to have an engineer on the ground within one week from the date of the acceptance of the proposition. Mr. Kennedy, the gentleman making the proposition, is vice president of the National City Bank of Houston, capital \$250,000.00, and has had large experience in the promotion and construction of railroads and trolley lines, among these the Beaumont Sour Lake Western and the Houston, Sabine & Red River roads. He comes highly recommended by leading bankers and business men of Houston among whom are F. A. Reichardt and E. W. Hutchinson, who are well known to the people of Bryan.

As the Eagle sees it Bryan is not likely to secure a trolley line any earlier, easier or on more favorable terms than those herein set forth, and we would like to see the bargain clinched and the work begin, after all proper safe guarding formalities have been arranged. The Eagle learns that Mr. Kennedy regards Bryan as splendidly located for material growth and development and that he is willing to prove his faith by a handsome investment. Gentlemen of Bryan, what are you going to do about it?

Mr. Fain, who accompanied Major W. R. Cavitt up from Houston yesterday, drove over proposed routes for the trolley line with Major Cavitt yesterday afternoon.

Senator Tillman Addresses Senate on Mrs. Morris Matter.

TOLD OF THE SKIRT.

Said Not Only Was There Holes In That Garment, but Also In Some Other Articles of Wearing Apparel.

Washington, June 29.—Senator Tillman interrupted the regular business of the senate Thursday to speak on his resolution calling for an investigation into the ejection of Mrs. Minor Morris from the white house last January. He complained that his resolution had been pushed aside constantly for one reason or another. He spoke of Mrs. Morris as an elderly lady, and referring to his former discussion of the case said he had been charged with going too far in characterizing her ejection from the white house as "brutal and cruel."

He recalled that on that occasion he had been charged by another senator with an effort to vent his personal feelings against the present chief executive. He had not then been able to supply the proof. Since then he had been held up to scorn for having presumed to express his honest feelings, and he never would have again approached the subject, "but for the fact that the name of the man, Assistant Secretary Barnes, must be held responsible for the act, has been sent to the senate for the postmastership of Washington. This nomination is considered equal to throwing the matter in the teeth of the senate, although the senate had not shown its teeth on the subject. He then detailed his efforts to have the nomination of Mr. Barnes rejected, reading his letter to Senator Carter, chairman of the subcommittee having the nomination in charge, and much other bearing on the subject. He told, also, of his ineffectual efforts to secure an investigation of his charge against Barnes, and then said that in order to justify his bringing the matter into the open senate he had drawn his resolution so as to provide for an investigation of the action of the police in ejecting Mrs. Morris from the white house.

In order that he might not be accused of unfairness, Mr. Tillman had read Mr. Barnes' defense of his conduct in the Morris case.

He also read the statements of Elmer E. Paine, who was, he said, one of the six newspaper men at the executive offices when the Morris incident occurred.

He commented at some length upon Mr. Paine's statement, saying he was the only one of those six men who had ever had anything to do about the matter outside of their own papers or private conversations. This he spoke of as "remarkable," and then quoted extracts from Mr. Paine's statement. His statement was referred to as "in substantiation" of the statement.

In contrast to that statement, he presented what he declared to be the actual facts in the case. These were included in a statement from James H. Price, a newspaper man who had witnessed the occurrence. In Mr. Paine's statement it was said that Mrs. Morris was treated as considerably as possible, while Mr. Price said she was "carried off like a sack of salt."

Mr. Tillman also discussed the difference of their testimony as to whether Mrs. Morris had been dragged, and as going to prove beyond all possibility of dispute, he said, Mrs. Morris had furnished him with the black silk skirt she wore on the occasion. "This was torn in many places, while there was a round hole at one of the knees, showing that she unquestionably had been dragged. Not only was there a hole in the skirt, but there were also holes in the underclothing and in the hosiery—proof sufficient to prove any man 'an arrant liar who spoke to the contrary,'" said the senator.

He quoted one witness as expressing an opinion that Mrs. Morris was "demented and characterized as a 'queer proposition' that any woman, under like circumstances, should be pronounced insane."

"She was hysterical! What woman would not have been so under the treatment she received?"

Speaking of the police at the white house, Mr. Tillman said they are such tendency toward imperialism as would justify the use of the military for that purpose. If the public wanted to go to the devil along the lines of imperialism he could stand it.

Servants Suspected.

London, June 29.—The Times' St. Petersburg correspondent learns that the court is about to return to Tsarsko-Selo owing to the discovery that there are revolutionaries among the palace servants at Peterhof.

Refused to Fire on Strikers.

Moscow, June 29.—A special dispatch to the Russky Slovo says that two regiments at Yvolizabepol have refused to fire on strikers.

About Ended.

Washington, June 29.—Guatemalan trouble is said to be about at an end.

FINGERS ON THROTTLE.

Engine Expires While the Train Was Speeding Swiftly Along.

Philadelphia, June 29.—The Colonial express, from Boston to Washington on the Pennsylvania railroad, arrived here with George Maxwell, the engineer, dead at the throttle. The train left Trenton, N. J., on schedule time. There are no stops between that place and the North Philadelphia station, but it is customary to slacken the speed at Frankford Junction, in the northeastern section of the city. When this was not done James Hackett, the fireman, called to Engineer Maxwell, who was at his post. Receiving no reply Hackett climbed over to the engineer's side of the cab and found Maxwell dead, his fingers rigid upon the throttle. Maxwell's death was due to heart disease. He was forty-five years old.

HEAT TERRIFIC.

Thursday Was the Most Torrid Day in Chicago This Summer.

Chicago, June 29.—Death and prostration followed the burning rays of the sun in Chicago Thursday. It was the hottest day of the year, the thermometer registering 93 degrees in the United States observatory, and touching 98 in the street. No lake breeze tempered the scorching heat, and the intense humidity added to the torture of the thousands who were forced to work in the crowded down town and factory districts during the hours when the mercury was at its highest. Four persons were fatally stricken and fourteen others were hurried to hospitals or their homes in the hope of saving their lives.

MITCHELL ARRIVES.

Differences in Some Districts to Be Looked Into.

Kansas City, June 29.—John Mitchell arrived here from Indianapolis to confer with members of the Southwestern Coal Operators' association over local differences in the Novinger, Mo., and some Arkansas districts. In the Novinger district operators say that because of railroad conditions they cannot operate under the Kansas City agreement with profit. In Arkansas the trouble is over the miners' law passed by the recent legislature, the miners asserting that to carry out the Kansas City agreement they must violate this statute.

BAILEY AND TILLMAN.

Two Senators Had a Decidedly Warm Wordy Controversy.

Washington, June 29.—In the course of the debate on the conference report on the railroad rate bill Friday Senators Bailey and Tillman engaged in a very sharp controversy over the latter's denunciations of lawyers. The Texas senator indicated an opinion that this was demagoguery, and Mr. Tillman, while contending that he respected attorneys of standing, said he had an utter contempt for shysters and for men who pack political conventions. There was intense feeling for a few moments.

SLAIN ON PORCH.

Mrs. Maggie Patterson Killed and Her Brother-in-Law Arrested.

Birmingham, Ala., June 29.—Mrs. Maggie Patterson, wife of a harness maker, was shot and instantly killed Thursday afternoon while sitting on the front porch of her home on Avenue D and Eleventh street. Frank Bissett, her brother-in-law, a prominent locomotive engineer, is in jail, charged with the murder. Bissett and his wife separated a few days ago, and Mrs. Bissett went to live with her sister, Mrs. Patterson. While Bissett was passing the house Thursday Mrs. Patterson was sitting on the porch with Bissett's baby in her arms. The shooting followed.

When arrested, Bissett was found to have a bad bullet wound in his side. He claims that while passing the place persons hid behind the fence began firing at him, and as quickly as possible he fired back and fled. Bissett's wound is severe, but not fatal. He denies that he attempted to take his own life after killing Mrs. Patterson.

General Deficiency Bill Passes.

Washington, June 29.—The general deficiency bill, carrying about \$11,600,000, was passed Thursday night by the senate.

Paid Penalties.

Austin, June 29.—The Cassidy Southwestern Commission company of Fort Worth, a member of the Fort Worth Livestock Exchange, which pleaded guilty to violating the anti-trust laws, Friday paid into the treasury of the court the sum of \$7,500, which was the amount of penalties imposed on the corporation. This sum was turned over to the attorney general and deposited in the state treasury.

BRYAN, TEXAS, JUNE 30.

Because of sickness in his family a Hallettsville man resorted to a writ of injunction to stop the ringing of a church bell.

New York has a new millionaire Yorker sensation on hand which is monopolizing the associated press reports, and has Albert T. Patrick sparring for an opening.

The little waves of abuse and misrepresentation, which were ment to swamp Judge C. K. Bell in his race for governor, have broken harmlessly upon the rock of his unimpeachable integrity as a private citizen and as a public official. The people are finding out the truth that never by word or by act has he been untrue to their interests or negligent in the discharge of his whole duty. Upon this record he comes before the people without appealing to prejudice or attempting to array one class against another, and will be triumphantly elected.

GOOD PROOF AND GOOD LOGIC.

We have watched his career during all these years—first as state senator, then as district attorney, then as district judge, then as a member of congress, then as attorney general—and we are prepared to say, without one mental reservation, that C. K. Bell has ever been a faithful servant of the people. Any man who knows him will gladly testify that he is incapable of a mean thought or a dishonest act. He is a clean man, a patriotic man, a God-fearing man. In all our acquaintance, including even the preachers, we know no one who has higher ideals and nobler purposes; we would trust C. K. Bell to the end of the earth; the ark of the covenant would be safe in his hands.

We have no words of disparagement for Tom Campbell; he is a good man and a patriotic citizen, but he is an untried man, and his views are, as we see the matter, a trifle too radical for Texas at this time. Still, we like the man; we admire his qualities, and we could not find it in our heart to either berate or deride him. But these questions arise:

How is it that the Campbell men and the Brooks men can so easily get together against Bell? Are they in such hearty agreement that they instinctively run together? What is there about Judge Bell to cause the Brooks prohibitionist and the Colquitt anti-prohibitionist to clasp hands for his overthrow? Why should all three—Campbell, Brooks and

Colquitt—continue in the race? Might it not be deduced from what the Post has said that Bell is the leading candidate and that the others have conspired against him?

The Houston Post is aggrieved at Judge Bell, not on his official record, not on his standing as a man, not on his platform, but because he has the support of Gov. Lanham, due to his long friendship, and because he is apparently the man its own favorite, Mr. Colquitt, has got to beat if he finally wins. The post is supporting Mr. Colquitt because he is "a friend of Houston." Its treatment of Judge Bell has been markedly unfair.

The editor of the Times-Herald, from a personal knowledge of the man extending over a quarter of a century, knows that C. K. Bell, if elected governor of Texas, will administer the affairs of the office in a clean and capable manner, free from any partiality, free from all taint, free from corporate domination, and therefore he shall go to the polls in July with a Bell ballot in his hands, in the full consciousness that he is true to Texas and her best interests in casting such a ballot.—Waco Times-Herald.

JOEL CHANDLER HARRIS.

Southern Author Recognized by Southern Newspaper.

The much loved southern writer, Joel Chandler Harris, to whom the world is indebted for Uncle Remus' stories, is about to receive substantial recognition in a new form. The Galveston News announces the consummation of a deal by which it secures the exclusive rights in the southwest to the publication of Uncle Remus' stories, illustrated in color by J. Conde, the artist who has drawn the pictures for the Uncle Remus books of the past. The service will begin July 1.

This is a step in the right direction, as the Harris stories are really instructive, as well as entertaining to young and old alike. The News is to congratulate and commend for this recognition of the south, whose merit is winning favor more and more.

PEOPLE'S PARTY COMMITTEE.

Thomas E. Watson Endorsed For Pres-
idential Nominee.

St. Louis, June 28.—The first day's
session of the national committee of
the People's party came to a focus
when, after a heated discussion, a res-
olution characterized by S. W. Will-
iams, delegate from Indiana, as an
attempt "to end the organization of
the People's party over to an antago-
nistic element," was made the special
order of business for 9 o'clock Thurs-
day.

The resolution was introduced by
H. J. Mullins of Tennessee, and pro-
vided that the conference authorize
that the executive committee be com-
posed of the president of the Federa-
tion of People's party clubs, the chair-
man of the People's party national
committee and the presidents of all or-
ganizations which subscribe to the
Springfield, Ill., platform, and endorse
Thomas E. Watson for president.

PASSES LAST ONE.

General Deficiency Bill Goes Through
the House Wednesday.

Washington, June 28.—The general
deficiency bill, the last of the big
money measures, passed the house at
6 o'clock Wednesday with but few
changes in the text of the bill. Sever-
al items were inserted, due to late in-
formation of deficiencies in the de-
partments, the net increase being
about \$600,000 over the bill, as report-
ed from the committee on appropri-
ations.

Among the important actions of the
house were the passage of the senate
bill providing for a lock type of canal
and the adoption of the item in the
general deficiency bill ratifying the
legalizing of the duties collected dur-
ing President McKinley's term from
imports from the Philippine islands.
Early in the day it looked as if the
Democrats were lined up solidly
against the amendment, which was
put back in the bill under a rule, but
under the lead of Mr. James of Ken-
tucky the opposition melted away, and
few Democratic votes were cast
against it on its final passage.

CAUSED PANIC.

Wild Rumor Circulated That Children's
Throats Were Being Cut.

New York, June 28.—A wild rumor
that children's throats were being cut
in the public schools resulted in such
intense excitement and panic through-
out the lower East Side Wednesday
that fifteen schools, with 25,000 pupils,
were closed for the day.

The trouble was caused by opera-
tions performed on several children
recently for the removal of adenoids,
a fungous growth in the back of the
throat and nasal cavity. The opera-
tion is not a dangerous one, but the
reports concerning what had been
done spread rapidly, especially among
the Hebrews, and became changed into
rumors that the Russian anti-Jewish
massacres were to be repeated in this
country, and that a start was being
made on Hebrew children in the
schools.

In one instance a police court was
closed for an hour to permit the court
attendants and officials to aid the po-
lice in protecting a neighboring school.
At one building the excited people be-
came riotous, and doors and shutters
were closed to insure the safety of
those inside.

fice to examine into Harry K. Thaw's
mental condition reported to Assist-
ant Attorney Nott that so far as they
are able to determine, he is perfectly
sane. The report was made with the
reservation, however, that they still
have his physical condition to take
into consideration. Thaw would not
submit to a physical examination Wed-
nesday.

THE NEW VISIBLE

At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves
The Objections That Have Always Heretofore
Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desir-
able by practically all typewriter manufacturers, but the
difficulties to be overcome in construction in order to secure
durability have discouraged the very large adoption of these
machines. The invention of the method of assembling the
type bars as it is done in the Fox Visible has, however, made
possible the use of a wide pivotal bearing in the type hanger,
thus insuring the most perfect alignment at all times, and a
durability that is equal to that claimed for any "basket type"
machine. In building this new model, we have all the advan-
tage of the knowledge that we have gained in building and plac-
ing the regular Fox models on the market and we are able to
avoid all those experiments found in new machines which are so
expensive to the purchaser.

Here is a Short Description.

THE TYPE HANGER—The hanger has a
pivot bearing 7-16 of an inch wide. This allows the
use of a heavy type bar, providing an adjustable pivot
bearing which takes up wear as it occurs, thereby giving
a permanent alignment that is impossible to secure with a
narrow bearing without adjustment, and avoiding the
trouble caused where "forced alignment" is necessary.
This is the feature that has heretofore been considered as
being impossible to secure in a visible writing typewriter.
It is found only in the Fox and places the Fox Visible
in a class by itself.

TWO COLOR RIBBON—The ribbon movement
on this machine is simply perfection. It reverses and os-
cillates automatically, requiring no attention from the op-
erator from the time it is put on until worn out. When
a two color ribbon is used, by simply touching a button
on the keyboard the second color is secured instantly
without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE
—The carriage is so constructed that it can be quickly re-
moved and a carriage of different length substituted. One

Every feature on this machine has been tried out and
demonstrated as successful on the Regular Models of the Fox.
Unprejudiced experts have without hesitation pronounced the
machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot
we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their
kind and their manufacture will be continued as before.

machine can be purchased with different sizes of carriages,
thereby effecting a great saving over the ordinary method
of buying a long carriage machine complete. The car-
riage is ball bearing and runs with a tension of only 1 lb.

PERFECT VISIBLE WRITING—The entire
line is visible all the time.

THE KEY TENSION—The force required on the
part of the operator to print a letter is only 2½ ounces.
This is from 25 to 50 per cent. less than any other. It
is a vital thing both from the operator's standpoint of
less fatigue and the owner's of greater durability.

THE LINE LOCK—When the carriage reaches
the end of a line, the keys lock and nothing more can be
written until the release button is used or the carriage
returned to begin a new line.

ALUMINUM KEY LEVERS—Key levers are
made of aluminum. It is more expensive than steel or
wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator
is attached when ordered, at slight additional expense. It
is the only decimal tabulator in use on a visible typewriter.

"PORK BARREL BILL."

Omnibus Public Buildings Measure Passed by the Senate.

Washington, June 29.—Senator Scott, chairman of the senate committee on public buildings and grounds, reported the omnibus public buildings bill designating it as the "pork barrel" bill. He asked for its immediate consideration, and said in explanation that the committee had been engaged on the measure all Wednesday night, and there had been reductions of \$1,368,000, and increases of \$5,522,000, making a net increase of \$4,084,000 over the total represented by the bill as it passed the house. The bill was passed Thursday night.

TRAIN BLOWN OVER.

Twenty Occupants Were Injured, Seven of Them Seriously.

Cheyenne, Wyo., June 29.—A high wind blew over a train of eleven cars at Weir, a small station east of Cheyenne. The cars were used as quarters for Japanese laborers, and were on a siding at the time of the accident. Twenty laborers were injured, seven seriously.

The wind also blew down about a mile of telegraph poles and did other damage.

Anti-Scalping Law Legal.

Nashville, June 29.—The state supreme court holds the anti-scalping law is legal.

TAFT TO TOUR TEXAS.

Secretary of War Will Make an Inspection Visit During October.

Washington, June 29.—Secretary of War Taft will make a tour of inspection through Texas in October. He has advised Representative Slayden of this fact. It is believed his inspection will include Galveston fortifications and Laredo military post. His programme has not been definitely made out, but he may stop over in north Texas on his way to division headquarters in Oklahoma.

HEAT WORRIED HIM.

Thaw Had Considerable Difficulty In Going to Sleep.

New York, June 29.—Thaw had considerable difficulty in getting to sleep Thursday night in the tombs because of the intense heat.

While waiting for court to open Friday morning Thaw sat near an open window by the bridge of sighs, which connects the prison with the criminal court building. He talked freely with newspaper men and others, but declined to say anything whatever concerning his case. He appeared to be in good physical condition.

"How do you find the beds?" Thaw was asked.

"Well," he replied, "they are not just what I have been used to, but I guess I will get accustomed to them."

Thaw was taken into Justice Cowan's court, where he was told to plead to the murder charge behind three other prisoners, one of whom was a negro charged with larceny. He was dressed in the same gray suit which he wore Thursday, with a white shirt and collar and black bow tie. His appearance was very little different from that of Thursday, except he was slightly paler. He stood with his back to an open window at the north end of the court room and chatted with a court officer while the other prisoners were being arraigned. When his case was called Thaw stepped to the barrier, inside which his counsel, ex-Judge Olcott and T. J. McManus, were sitting at a table with Assistant District Attorneys Garvan and Nott.

When Clerk Tenney read the charge of murder in the first degree for killing Stanford White he asked Thaw what he had to say in regard to the indictment. The prisoner answered distinctly: "Not guilty." His counsel immediately interposed an amendment to the plea, asking of the court leave to withdraw the plea any time up to next Tuesday. This was granted and the prisoner was at once taken back to prison.

BENTLEY ORGANIZER.

People's Party Committee Also Made Another Texas Man Treasurer.

St. Louis, June 29.—The national committee of the People's party concluded its labors Thursday and adjourned sine die. The work accomplished consisted principally in the adoption of a resolution by H. J. Mullins of Tennessee, providing that the People's party agree heartily in the work being performed by the conference provisional committee of the centralizing the reform organizations of the country into an integral party—the People's party; the adoption of a general address to the American people setting forth the doctrines of the party; the authorization of Colonel H. L. Bentley of Texas to continue the work he had individually pursued for sixteen years of originating People's party clubs throughout the United States, election of him as president of the People's party club organization and appointment of a committee to raise \$4,000 annually to defray the expenses incurred in the club federation movement; the authorization of a movement to establish a party publication organ as soon as conditions justify and a multitude of speeches discussing and expounding the doctrines and basic principles of the party.

The report of the committee on addresses opened at Thursday's session, and was adopted unanimously. The addresses is to the American people, and is in part as follows:

"During the past few years there has been a continual demonstration of the correctness of the economic principles declared by our party conventions. The so-called 'fifty-cent' dollar has saved the country from disaster. Duties on imports have remained unchanged, transportation has remained in the same hands, no new land laws have been enacted, and the change from bankruptcy and ruin to business activity can be credited to nothing except the increase in the volume of money and the tremendous inflation of bank credits that have been used in business as money equivalents.

"Our contention has never been for any God ordained money metal, but for an increase in the volume of money sufficient to restore and maintain stability in the price level. There are other principles of party that are not accepted in full, and the party's mission will not be fulfilled until the questions in regard to monopoly, transportation, machine rule, control of the avenues of information, the censorship of the postoffice department and other questions have been settled. All monopolies have been owned and operated by the whole people.

"The demand that United States senators should be elected by the people, instead of by the legislatures, was first declared in the platform of the People's party, and is now advocated by practically the entire nation.

"We are opposed to any tariff that in its administration is for the benefit of American trust combinations which sell to foreigners cheaper than to the American consumer. Wherever any of the principles of the party have been enacted into law there has been unanimous endorsement of them. This is particularly so in regard to the rural free delivery.

"The growing evils, such as government by injunction, militarism, autocratic power in the postoffice and in all of the other departments of the government, graft and favoritism everywhere are merely the expressions of an increasing degeneracy in the machine rule system, which will be terminated as rapidly as the people's sovereignty is re-established."

J. M. Mallett of Cleburne, Tex., was elected treasurer of the finance committee.

TACKABERRY ACCEPTABLE.

Fort Worth Man Makes Favorable Impression as an Umpire.

In the Southern Baseball League game Thursday at Shreveport, New Orleans was shut out while the locals scored four runs. Umpire Tackaberry of Fort Worth, recently appointed, made a favorable impression, not one of his decisions being questioned.

CRASHES INTO A CAR

Return Trip of Brooklyn Grocer a Disastrous One.

AUTOIST LOSES LIFE

Herman Schnibbe's Companions Are Rendered Unconscious and Conveyed to a Hospital and Machine Wrecked.

New York, June 29.—Herman Schnibbe, a wealthy grocer of Brooklyn, invited three friends to accompany him in his automobile to Coney Island and Manhattan Beach. The party started from the beach for home shortly after midnight. Schnibbe was driving the car down Pacific street, Brooklyn, at a good speed. At Troy avenue, where the Summer avenue trolley cars cross Pacific street, a car was rapidly approaching and car and machine came together with a crash. The automobile was thrown a dozen feet and overturned. The trolley car left the track. Schnibbe's guests jumped, but he was pinned beneath the machine and killed. His companions, two of whom had been knocked unconscious, were taken to a hospital.

GOES TO CHILE.

Secretary Root Includes That Country In His South American Trip.

Washington, June 29.—Secretary Root will accept the hospitality of Chile and will make part of his trip along the west coast of South America in a Chilean warship. The United States cruiser Charleston, on which Secretary Root will sail for South America, is too large a craft to work her way along the passage from the Strait of Magellan to Valparaiso, Chile, and consequently the American secretary of state and party will probably leave the Charleston at Sandy Point, in the Strait of Magellan, and go aboard a Chilean man-of-war, which can work along the islands on the west coast and the mainland, thus shortening the trip by several hundred miles and enabling Mr. Root to remain longer in Chile.

Secretary Root will probably be at Rio de Janeiro for about ten days. His stops on the west coast of South America will be at Valparaiso, Chile, Callao, Peru, and Guayaquil, Ecuador. From Valparaiso he will journey by rail to Santiago, the capital of Chile. He will also take a rail trip from Callao to Lima, the Peruvian capital. The distance from Guayaquil to Quito, the capital of Ecuador, is so great Mr. Root will probably be unable to make this trip.

After crossing the Isthmus of Panama Mr. Root will go to Cartagena, Colombia, to pay his respects to that government. The Colombian secretary of state doubtless will be at Cartagena to greet Mr. Root, and it is not unlikely that President Reyes himself will make the long trip from Bogota to greet the American secretary of state. Cartagena will be Mr. Root's last stop before returning to New York.

TRICKETT'S PROPHECY.

Predicts Sales of Liquor Will Soon Cease After Campaign Begins.

Kansas City, June 29.—C. W. Trickett, assistant attorney general, who is fighting saloons in Kansas City, Kan., conferred Friday with Judge W. C. Holt of the common pleas court on a new scheme to close joints. "I predict," said Mr. Trickett, "that there will be no liquor served in this county within thirty-six hours after we launch our new campaign." The nature of the campaign he declined to make public. In the meantime, the attorney general will continue collecting evidence preparatory to final action in the case of forty jointists, who had previously been served with abatement writs.

REGIMENT DEGRADED.

Result of Adopting Resolutions Upholding Action of Parliament.

St. Petersburg, June 29.—Prebora-jensky regiment of life guards has been degraded, the result of its adoption of resolutions recently upholding all actions of parliament and announcing the regiment wanted no more police duty, entailing the slaying of brothers and fathers. By imperial order the regiment is transferred into a special infantry battalion and all privileges pertaining to regiments of the guard have been withdrawn from it.

SINGULAR AND SAD.

Old Man Falls and Breaks Neck and Wife Dies of Heart Disease.

Millersburg, O., June 29.—While James Patterson and wife, both nearly eighty years old, living near Bloomfield, were visiting their daughter, Mrs. Henry Work, west of here, the old man fell down the cellar steps, breaking his neck. He died instantly. His wife, who witnessed the accident, fell over with heart disease and died within a short time. Both will be buried in one grave.

Lawton, June 29.—Quannah Parker, chief of the Comanches, has gone to

CHIEF QUANAH PARKER.

Anadarko to see about allotment matters in connection with the interests of Kiowa, Comanche and Apache infants. He estimates that 300 are entitled to allotments. All second choices, he says, have been taken.

ATTEMPTED ASSAULT.

Former Sleeping Car Porter Must Answer a Serious Charge.

Waco, June 29.—A negro, formerly a porter in the service of the Pullman Sleeping Car company, was brought here by Sheriff Todd and Deputy Sheriff Price of Milam county, the officers being apprehensive of lynching. The charge against the negro is attempting to commit a criminal assault in a sleeping car recently. The conductor and other trainmen heard the lady scream and the negro leaped off and took to the bushes. He was arrested near Rogers.

WHITE BURIED.

Several Diseases Would Soon Have Ended His Earthly Career.

New York, June 29.—With the simple and impressive burial service for the dead of the Episcopal church Stanford White was laid to rest at St. James, L. I., where he had a summer home. The service was held in St. James' church and the body interred in the grave yard adjoining the quaint little structure.

In the opinion of the physician who performed the autopsy on White's body, the life of the architect was shortened not more than two years by the bullets from Thaw's pistol. He was found to be suffering from Bright's disease, from incipient tuberculosis and from fatty degeneration of the liver.
